JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Acting Assistant Surgeon De Forest at Libau reports, July 9:

During the week ended July 3, 5 cases of smallpox occurred in Libau. There are 19 cases of smallpox present. Vaccination is actively carried on.

The steamship *Birma* left Libau for New York July 5 with 168 cabin and 935 steerage passengers and a crew of 110. All had been in Libau 5 full days under observation. All steerage passengers and members of crew had been vaccinated previous to sailing.

ST. LUCIA ISLAND.

Castries—Inspection and fumigation of vessels.

Acting Assistant Surgeon Maylie reports, June 28, and July 5 and 11:

Week ended June 25. Bills of health issued to 10 vessels. Of this number 5 were fumigated. Week ended July 2. Bills of health issued to 1 vessel, which was fumigated. Week ended July 9. Bills of health issued to 9 vessels, of which 7 were fumigated.

Sanitary conditions of port and vicinity good. No quarantinable diseases exist.
